

# How to Connect the LG BP-350 Blu-ray Player to Your TV

1. Connect cables (on rear panel):
  - a. Plug the power cord into the Blu-ray player (DC IN) and connect it to a power source.
  - b. Connect the HDMI cord from the Blu-ray player (HDMI OUT TO TV) to an HDMI jack on the TV.
2. Follow the instructions on the TV using the remote controller.
3. Connect to Wi-Fi as needed.\*
4. After the initial setup, the Home menu will appear on the TV screen.
5. Click the movie and enjoy!

**\*Note 1:** The LG BP-350 Blu-ray player doesn't need the internet for regular disc playback, but it is required for features like streaming services or online functions.

For more details, please view the User Manual at [coqlibrary.ca/learn/tech/blu-ray-player](https://coqlibrary.ca/learn/tech/blu-ray-player)

**\*Note 2:** If you opt to access your streaming service accounts, please remember to log out, as the library won't undertake data-wise wiping of the Blu-ray player upon its return.
